

WHITEPAPER FRACTION META (FTM)

BUILDING THE FUTURE WITH FRACTION META (FTM)

A NEW VERSION OF REALITY

Fraction Meta (FTM) is an open source blockchain that combines the best features of public and private blockchains to offer scale and speed to everyone who wishes to build, work or play on the metaverse.

Supporting art and the artist hand is something we are very passionate about at Fraction Meta, and being able to showcase the incredible work of artists from all over the world is one of the best exhibitions in our ecosystem, Fraction will have a space to showcase the art and skill of talents not only in the art world but also in sport. Fraction has a future immersed in technology and we are open to join the context and demands of technological advancement, we will walk at the forefront of modernity and advancement of cryptography, arousing the interest of our community and keeping alive the functionality and purpose of our asset.

MISSION

Creating a platform of easy technical and organizational access, which allows holders to develop their capabilities and imagination within the Metaverse, our goal is the benefit of the holders with the fast and viable exchange on the blockchain.

FRACTION METAVERS UTILITY

Fraction is the main currency and utility token used in the Fraction metaverse. It will allow you to get a number of virtual assets. Fraction Meta's unique NFT collection (FTM) will be a bulwark as a digital asset for our community, geared towards culture, art and virtual and electronic sport.

AN ECOSYSTEM SUITABLE FOR THE METaverse

What is Fraction Metavers?

Art and culture have found their maximum expression and potential through Web3, games and recreation are a vital part of today's world. In this way Fraction Meta (FTM) seeks through the blockchain to be part of the impact it has on culture.

Fraction Metavers has been created to support everything that is to come in crypto, backed by its community and ecosystem.

What is the Metaverse?

It is the way between the physical world and the virtual world, focused on the decentralized open source virtual world, the origins are arise from cryptographic protocols to manage the digital asset, example: Digital culture and art, real estate and technological advertising spaces.

ORIGENES NFT

The first collection of NFT would be for each person who wants to buy and the purchase of the NFT will be thrown with FTM once you buy the nft when the token will rise in price the NFT will have a much higher value to hold FTM will be in benefit of all 1% once sold are distributed among the users will be like a type of Staking that each one will receive whenever it holds. It will have a spatial value, they will be scarce and will be of two types NFT UNicos and NFT that will have more cantidas (exemplo: the unique NFT will exist only 1 unit in the BSC blockchain contract and those that will have more quantity exemplo: For each NFT there will be 2/3/4/5/6/7/8/9/10 with a maximum of 10 units each nft).

That is to say the NFT UNicos would be existing 1 unit

The NFT with the highest quantity will have a maximum of 10 units that can be purchased.

PLAY AND WIN FRACTION

Fraction Meta (FTM) will be the governing token that people will be able to earn by completing game challenges.

FARM AND CHARACTER TRADE

Fraction Meta (FTM) will be needed to accumulate characters that can be used for play.

METAVVERSE

A unique game planet, where Fraction Meta (FTM) will be the chain key for the cornerstone.

SUPER FRACTION

Super Fraction will be our flagship game, from this engineering we will open the field to real estate and access to the entire virtual world.

COMPETE AND HAVE FUN

Users can play super Fraction, invite their friends and family and network system in the virtual world.
